

## Wireless Expense Reduction and Management

### CASE STUDIES

Synergy Audit Group and our partner have helped save our clients millions of dollars on their corporate wireless service—all without changing providers or contracts. We leverage our industry knowledge and access to discount plans not readily available to the marketplace to reduce costs; manage carriers, plans, and devices; and provide detailed monthly savings reports. Organizations in all vertical markets, and with as few as 75 corporate devices, can realize an average of **30% savings!**
